

THE NEW

Malwarebytes Anti-Malware **Premium**

PROTECTS AND DEFENDS

against new and unknown online threats that antivirus will miss

Innovative anti-malware beats criminal software that steals your money and online life

Today's cyber criminals build software designed to slip past antivirus programs undetected. Malwarebytes Anti-Malware Premium crushes these threats with innovative technologies designed to defend you while keeping your online experience fast and hassle free.

What it does for you

- Detects and protects against malware in real-time
- Blocks hacking and phishing attempts
- Schedules automatic scanning
- Offers three flexible scanning modes

How it works for you

- Anti-Malware/Anti-Spyware
- Malicious website blocking
- Real-time protection
- Heuristic detection
- Integrated Malwarebytes Anti-Rootkit
- Hyper Scan mode
- Scan/Database update scheduler
- Integrated Malwarebytes Chameleon
- Advanced malware removal
- Antivirus compatibility

What makes Malwarebytes Anti-Malware Premium different

Finds what antivirus doesn't

Three proprietary technologies (signature, heuristics, and behavioral) automatically protect you and your online experience from malware that antivirus products don't detect.

Removes what antivirus can't

Employs malware removal techniques so innovative that computer technicians often recommend Malwarebytes when an antivirus can't finish the job.

Practices self-defense

Proprietary Malwarebytes Chameleon technology protects Malwarebytes Anti-Malware Premium against malware's attempts to disable it, so you're always protected.

Finds even deeply embedded rootkits

Malwarebytes Anti-Rootkit technology drills down and removes malicious rootkits, one of the most dangerous forms of malware.

Protects you from fake websites

Blocks malicious websites that can steal your credit card information or identity, or that can install malware.

Works faster and leaves a small footprint

Offers lightning fast Hyper Scan mode and takes up less space on your hard drive than 10 digital music files.

Malwarebytes Anti-Malware Premium defeats:

Worms, rogues, dialers, Trojans, rootkits, spyware, exploits, bots, and other malware

Tech Specs

Version 2.0.2
